THE CROWN PRINCE'S AFFLICTION .- Dr. W. Nelson, of New York, who has just returned from Germany, says when he was in Baden Baden a few days ago he was assured by physicians and other gentlemen who had trustworthy sources of information that the condition of the Crown Prince Frederick is unquestionably precarious. It is admitted now that he is suffering from cancer of the throat, known as tobacco smoker's cancer. The case is very similar to that of Gen. Grant. The Prince was for many years an inveterate smoker. In spite of all official opinions to the contrary, German physicians consider the Prince already a doomed man. The very severe caustics used here destroyed not only the tissue primarile. doomed man. The very severe caustics used have destroyed not only the tissue primarily affected, but the parts themselves. So severe has the treatment been that some portion of the bony tissue is now visible. "Conservative Germans," Dr. Nelson added, "view the probability of the Crown Prince's early demise with much alarm. The Emperor, already past 91, has had several pseudo apoplectic seizures, though this has been industriously denied. His death is liable to occur at any moment. With the Crown Prince as the Emperor's successor it is believed that a peaceful successor it is believed that a peaceful policy would be maintained and that Bismarck's influence would be less predomi nant. But if he is at death's dnor the imperial power will soon fall to Prince William, the Crown Prince's eldest son. He is a young man of 28 years and is said to be very inch a soldier. People who know him say he is bold, impetuous, and fiery, and ambitious to make a name as a warrior. Much apprehension is therefore feit in regard to Germany's proximate future.

A Sad Case of Poisoning

is that of any man or woman afflicted with disease or derangement of the liver, result-ing in poisonous accumulations in the blood, scrofulous affections, sick-headaches, and diseases of the kidneys, lungs or heart. These troubles can be cured only by going to the primary cause, and putting the liver in a healthy condition. To accomplish this result speedily and effectually nothing has proved itself so efficacious as Dr. Pierce's "Golden Medical Discovery," which has never failed to do the work claimed for it,
